Online Safety

We need to protect ourselves and our devices from online threats. Training our eyes to spot suspicious signs online can avoid many problems. In this activity, we can learn about what to look out for in ensuring online safety and security.

Chat Room:

Spot the Threats

This picture has one online threat. Find the threat and encircle it. You have 15 seconds to find the threat.

Type of Resource:

This is a printable student activity from PageWerkz that may be distributed to students to educate them how to be more alert to possible security and safety threats they might encounter online. Students will be shown a picture of a website being browsed and asked to pick one particular element which they think may pose a security threat. The full version of the courseware features animated, interactive work sheets for spotting eight threats that will keep the students highly engaged in the game. At the end of the activity, there are additional tips that can help kids spot warning signs of unsafe and unsecure sites and practices.
How to use this Resource:

You are encouraged to use this resource if you are a teacher who wants your students to avoid being hacked or infecting their tablets with spyware, viruses and malware that can steal their private information. Start the discussion by asking the class to enumerate popular viruses they know and how it infects its victims. You can then print this activity and let the students answer. Afterwards, ask the students to share other advice for keeping their devices and accounts free from being hacked and getting infected with viruses.

Correct answer for the Question in this Resource:

University of Werkz Asia

STUDENT IDENTITY CARD

Name: Sean Tan Yao Long

Address: #13-B F. ORTIGAS CENTER, PASIG CITY

Date of Birth: May 3,1992

Validity: 03/18

030000091a-21442

- Do not share personal information like full name, student ID number, home address and mobile number online.

More Details about the Resource:

Cywell is the first of its kind fun, highly engaging, interactive courseware produced by leading e-publisher Amdon and SOOS-OIO designed to provide students a guide for dealing with online security and safety threats. With just 10 minutes a day for 1 week, both parents/students/teachers can learn about how they can spot warning signs of online dangers that may easily be overlooked by regular people.

What's awesome about Cywell is how it tackles not just protection from online threats but also provides tips on improving one's emotional wellbeing while inter-acting with other people online. To keep readers engaged, the program is designed in bright, fun colors, peppered with animation clips and lively game immersion. Students will also be inspired to complete game badges because they stand a chance to win movie vouchers.
