Type of Resource:

This printable worksheet should be distributed to fifth grade or sixth grade students to answer to teach them about the human reproduction system.

The actual courseware/source of this activity is an integrated science courseware that promotes easy science learning by helping students combine the knowledge, skills and attitudes they learned in science class through answering various questions in this interactive workbook.

How to use this Resource:

We highly suggest that you use this resource if you are a teacher who wants your fifth grade or sixth grade students to learn more about the human reproduction system. Open the discussion by asking them if they know how their pet dogs and cats came into being.

Proceed to talk about human reproduction. You can then print this worksheet and ask the students to answer the questions. After answering the question, ask the class to enumerate all the parts of the female and male human reproductive system and how each one functions.

Answer Key:

1. 1
2. B

More Details about the Resource:

Conquer Science for Primary Levels 5/6 is an integrated science courseware that promotes easy science learning by helping students combine the knowledge, skills and attitudes they learned in science class through answering various questions in this interactive workbook.

Containing a collection of 100 exercises and more than 650 questions on popular science topics that include Reproduction in Humans, Water and Changes of State, Man's Impact on the Environment, and Adaptations for Survival to name a few, Conquer Science serves as a quick and thorough revision practice for students who are preparing for their science exams.

What's awesome about Conquer Science for Primary Levels 5/6 is how it promotes independent learning because students have the option to immediately check if their answers are correct through the "Check Answers" feature. Another great feature of the courseware is the "Reset Answers" button, which let the students try answering over and over again until they've mastered the lesson.
