Answer Key:

1. When too much insecticide is used, the number of fruit obtained decreases.
2. Usage of chlorofluorocarbon (CFC) products

More Details about the Resource:

Conquer Science for Primary Levels 5/6 is an integrated science courseware that promotes easy science learning by helping students combine the knowledge, skills and attitudes they learned in science class through answering various questions in this interactive workbook.

Containing a collection of 100 exercises and more than 650 questions on popular science topics that include Reproduction in Humans, Water and Changes of State, Man's Impact on the Environment, and Adaptations for Survival to name a few, Conquer Science serves as a quick and thorough revision practice for students who are preparing for their science exams.

What's awesome about Conquer Science for Primary Levels 5/6 is how it promotes independent learning because students have the option to immediately check if their answers are correct through the "Check Answers" feature. Another great feature of the courseware is the "Reset Answers" button, which let the students try answering over and over again until they've mastered the lesson.
